[/shaileshsuhagiya](#)

Experienced Senior Flutter Developer with 7 years in mobile app development, including 6 years focused on building cross-platform apps with Flutter. Proficient in Dart, state management (GetX, Bloc), and native Android development (Java/Kotlin). Successfully delivered 15+ high-performance apps, providing scalable architectures and optimizing for performance. Worked with service-based companies and startups, helping them create impactful mobile solutions that drive growth. Strong in problem-solving, performance tuning, and delivering seamless user experiences. Passionate about mentoring junior developers and collaborating in agile teams to deliver results.

Experience

Keenai Global, Bangalore(India) - Senior Associate (Flutter)

Dec 2022 - Present

Flutter Native Android iOS Figma

- Led Flutter app development and deployment, delivering high-performance, user-centric solutions with seamless backend integration.
- Automated app deployment using CI/CD pipelines for Flutter applications, streamlining release cycles. Redesigned the app architecture to improve scalability and maintainability, enhancing code quality and team efficiency.
- Integrated Shorebird into Flutter project to enable OTA updates, reducing release time and improving app stability through real-time code delivery.
- Implemented manual and Singpass KYC flows, streamlining HNI client onboarding and driving a 100% increase in user growth through faster and seamless verification.
- Architected a scalable event tracking framework with Segment, significantly enhancing product visibility and fueling 80% user growth.

Dignizant Technology, Surat(India) - Senior Flutter Developer

Mar 2021 - Nov 2022

Flutter Native Android iOS Figma

- Led Flutter app development with cross-functional coordination to deliver ongoing improvements.
- Successfully delivered over 3+ mobile applications to clients, including prominent brands such as Wella Professionals, Anuroop Wiwaha, and others, ensuring timely delivery and high-quality standards. Boosted client satisfaction by 80% through timely delivery and quality output.
- Developed Flutter plugins for seamless integration with Elo touchscreens, Epson & Star printers, MagTek card readers, Pax terminals, and Socket barcode/NFC scanners.
- Converted client requirements into robust, functional features with efficient implementation.

Cubes Infotech, Surat(India) - Android and Flutter Developer

Aug 2019 - Mar 2021

Flutter Native Android Figma

- Developed new features in alignment with client requirements and product vision.
- Maintained and enhanced existing applications, identifying and executing performance optimization.
- Directed deployment processes for both App Store and Google Play, ensuring smooth and timely releases.
- Handled end-to-end development and communication for over 5 clients, ensuring timely delivery and client satisfaction across multiple projects.
- Delivered 7+ mobile applications end-to-end, ensuring quality, performance, and on-time deployment.

D&K Group, Surat(India) - Android Developer

Jul 2018 - Aug 2019

Native Android Figma

- Managed multiple mobile app projects end-to-end, from design through development to deployment.
- Developed and integrated new features aligned with client requirements and product goals.
- Led successful app releases on the Google Play Store, ensuring smooth deployment and compliance.

Education

Suresh Gyan Vihar University - Master of Computer Applications (CGPA 8.2 of 10)

Aug - 2019

Sutex Bank College of Computer Applications and Science - Bachelor of Computer Applications (CGPA 6.9 of 10)

Aug - 2017

Projects

Keenai Wealth

- Flutter
- Native Android
- iOS
- GetX
- MVVM

Keenai Wealth app for HNI clients, offering equities, ETFs, alternative funds, and tailored portfolios to support high-end wealth management needs. Built and optimized the trade flow in the Keenai Wealth app using Flutter, enabling smooth buy/sell execution and boosting HNI engagement by 90%.

Features: Authentication Google and Apple, AWS Mobile Verification, Support, Portfolio Tracking & Management, SingPass KYC, Push Notification, Segment, Santry and WebEngage

Anuroop Wiwaha - Matrimonial

- Flutter
- Provider
- MVC

Top-rated matrimonial platform for Marathi and Gujarati communities. Enhanced user experience and performance, contributing to a 200% increase in user growth and engagement.

Features: Authentication, Verification, Advance Search, Matchmaking Suggestions, Express & Respond to Interests, Saved Searches, Real-time Chat & Messaging, Push Notification, DataDog Monitoring, Firebase and Razorpay Payment

ZuZa (POS System)

- Flutter
- Native Android
- iOS
- Bloc
- TDD

Platform offering POS solution for offline businesses Enabled seamless hardware integration across retail and POS systems by developing robust plugins for Elo touchscreens, Epson/Star printers, MagTek card readers, Pax payment terminals, and Socket barcode/NFC scanners—significantly improving device interoperability and system reliability. **Features:** Inventory Management, Customer Management, Order Management, Payment Processing, White-label Functionality and Multi-Location Support

Carbon Voice

- Flutter
- GetX
- MVC

Capture ideas 4x faster with voice, share instantly to skip meetings, and turn talks into documents with AI. Led POC and implementation of seamless integration with iOS Spotlight and Google Assistant Voice Actions, enhancing app discoverability and enabling intuitive, voice-driven user interactions. **Features:** OTP-based Mobile Login, Advance Search Spotlight(iOS), Google Action(Android), Real-time Audio Chat & Messaging, Push Notification, Firebase, WebSocket, and In-App purchase

Octopod

- Flutter
- Native Android
- iOS
- Bloc
- TDD

Octopod is an innovative educational platform that seamlessly connects learners, educators, payors, and administrators in a unified community. **Features:** Login, Dashboard, Courses, Videos, Quizzes, Assignments, Chat(Socket), Notifications, Payments, Reports, Profiles, Scheduling, Progress, Support
